

SAFETY AND TOXICOLOGY SERVICES

One team – Comprehensive Solutions

Frontage offers an impressive suite of services to take lead candidate drugs to the IND stage. With Experimur's acquisition, Frontage now has significantly expanded our range of services, supporting customers' drug-development programs beyond IND and into NDA-enabling toxicology studies. Frontage has exceptional bioanalytical supporting capabilities for small molecules, large molecules, and biomarkers.

Concord, Ohio; Suzhou, China

- General Toxicology
- Genetic Toxicology
- Pharmacokinetics
- Safety Pharmacology
- On-Site Bioanalytical

Chicago, IL

- General Toxicology
- Specialized Toxicology
 - Juvenile Toxicity
 - Infant Nutritional Studies
 - Ocular Toxicity
- Safety Pharmacology
 - Neurotoxicity and Neuro-Safety Pharmacology
 - DART
 - Carcinogenicity

**FRONTAGE**

Concord, OH, USA | Suzhou, China

Frontage's Safety and Toxicology services provide exploratory and GLP-compliant services to guide new therapies from discovery through development. Frontage offers comprehensive expertise across a wide spectrum of projects from stand-alone exploratory toxicology to fully integrated IND programs, including general toxicology, safety pharmacology, and genetic toxicology. Additionally, Frontage provides integrated services such as, as formulation analysis and bioanalysis, optimized to meet each individual program's needs.

- Custom-designed, purpose-built, 85,000 sq ft facility (US)
- 32 Animal Rooms (US)
- >210,000 sq ft facility (China)
- 100 animal rooms (China)
- Housing for all laboratory species, including NHP, dog, rodent, rabbit, swine, cat (China)
- Complete Surgical Suites
- HPLC Dose Analytical Lab
- Bioanalytical Lab
- Clinical Pathology Lab
- In-House Histology Lab
- Genetic Toxicology Lab
- Safety Pharmacology Lab
- ELISA & Biomarker Lab
- AAALAC-Accredited, USDA-Registered, OLAW-Assured
- GLP-Compliant Operations
- DEA Licenses, Schedule 2-5

SAFETY AND TOXICOLOGY SERVICES

One team – Comprehensive Solutions

Experimur, a Frontage company, provides full-service, GLP-compliant toxicology and related non-clinical development services supporting the pharmaceutical and biotechnology industries. In addition to IND- and NDA-enabling toxicology studies, Experimur's experience spans extensive developmental, reproductive, and juvenile toxicology, as well as safety pharmacology, transgenic & routine carcinogenicity and general toxicology in all major laboratory species. Additional in-house support services include histology, diagnostic pathology, clinical pathology, and analytical chemistry.

- Custom-designed, purpose-built, 54,000 sq ft state-of-the-art facility
- 40 Animal Rooms: 23 Small Animal, 17 Large Animal
- BSL-II Suite
- Complete Surgical Suites
- Clinical Pathology Labs
- In-House Histology Lab, Including Diagnostic Pathology
- Latest Instrumentation for Clinical Pathology and Analytical Chemistry
- AAALAC-Accredited, USDA-Registered, OLAW-Assured
- GLP-Compliant Operations
- DEA Licenses Schedule 1-5

Frontage Laboratories, Inc. is a contract research organization (CRO) that provides integrated, science-driven, product development services throughout the drug discovery and development process to enable pharmaceutical and biotechnology companies to achieve their development goals. Comprehensive services include drug metabolism and pharmacokinetics, analytical testing and formulation development, preclinical and clinical trial material manufacturing, bioanalysis, preclinical safety and toxicology assessment and early phase clinical studies. Frontage has enabled many biotechnology companies and leading pharmaceutical companies of varying sizes to advance a myriad of molecules through development and file regulatory submissions in the United States, China, and other countries.
